

Regular Meeting Minutes
Tiverton Recycling/landfill Committee
Thursday November 20, 2014

Members present: Stephen Berlucchi, Steven Rys, Dick Hart, Richard Guimond,

- **Minutes approved with changes**
- **Dick Hart reported to committee on search for suitable location for recycling center. Dick with the help of the assessor's office combed over numerous town and private owned properties and presented committee with a short list to review. Committee discussed a number of options and felt a property in the industrial park would make an ideal location. This location is centrally located would not interfere with residential properties and is close to highway and nearby public works garage. Committee will continue to work on feasible of this location.**
- **S Berlucchi will work with treasurer to determine yearly total from fees collected at landfill.**
- **Town submitted application for landfill license**
- **Richard Guimond commented on a article about a Rhode Island community that was heavily fined for having recycling loads rejected for contamination. A major reason was the automated trash trucks that contributed to contaminated recycling. S. Berlucchi informed committee that Tiverton has never had a load rejected.**
- **New report from Pare engineering brings the closing cost of landfill at 9 million and closing date of 2016-2017. The town presently has 6 million in closure account and half million in revenue a year from Payt which will leave the town with deficit of 2 million dollars at closing time**
- **Adjournment**

Minutes prepared by Steven P Rys
